

Stephen Cho

AI Governance Architect · Capital Markets Risk & Systems

San Francisco, CA / (415) 699-4064 / stephenchung29@gmail.com / [linkedin.com/in/stephen-cho-50226699](https://www.linkedin.com/in/stephen-cho-50226699)

Designed QuantChoAI from a decade of capital-markets failure modes: a two-layer financial AI operating system that turns agentic work into governed decisions through risk-aware routing, bounded authority, evidence gates, and recoverable execution.

10+ YEARS · FRONT ARENA + CALYPSO · ~\$500M FUND · QUANTCHOAI

O1 / EXPERIENCE

SIGNATURE SYSTEM — TWO-LAYER FINANCIAL AI OPERATING SYSTEM · FAIL-CLOSED

QuantChoAI LLC

Apr 2025 - Present

Founder & AI Governance Architect

I. CLIENT EXPERIENCE OS Dashboard · Positions · Risk · Subledger — market/risk state, decisions, provenance, and audit context.

SCHEMA-DEFINED TICKETS + BOUNDED AUTHORITY

II. AGENT GOVERNANCE OS Route · Authorize · Test · Promote / Recycle · Recover — the control layer behind the client experience.

- Designed quantitative decision models for agent selection, trust, and authority by combining expected task value, success likelihood, cost, uncertainty, and tail risk (CVaR-aware routing; Bayesian/Elo-style trust updates).
- Governed schema-defined workflows through risk tiers, shadow-to-canary-to-full promotion, bounded recycle/replacement, test and audit gates, and operator approval for money or irreversible actions.
- Implemented MongoDB ticket/claim ledgers, isolated Git worktrees, deterministic reduction, fail-closed validation, append-only outcome telemetry, dashboards, and recovery controls.

Calypso Technology

Jan 2020 - Jan 2021

QA Engineer - XVA / ERS

- Protected monthly Calypso XVA/ERS release quality through manual regression and client-scenario tests, investigating production defects in JIRA, monitoring services and outputs, and supporting formal release decisions.
- Diagnosed pricing, risk-valuation, and P&L breaks using Calypso Scenario Engine and Monte Carlo matrices across yield-curve, underlying-price, and FX shocks; supported relative-value and asset-allocation decisions.
- Supported risk and compliance implementations across global banks, exchanges, and market infrastructures - including HKEX, EUREX, MUFG, RBC, HSBC, AIB, Gazprom Bank, and Emirates NBD - through upgrades, patches, configuration, and regulatory-module changes.

Open Door Capital Advisors, LLC

May 2018 - Jan 2020

Investment Risk and Performance Specialist / Investment Control Specialist

- Produced VaR, stress, liquidity, concentration, attribution, due-diligence, contribution-to-return, and monthly investor reporting for an approximately \$500M Greater China hedge fund.
- Evaluated vendor risk models and developed custom factors for Greater China and emerging-market exposures; built risk and performance-attribution workflows using Bloomberg, FactSet, and R.
- Performed daily controls spanning swap, cash, and securities approvals; pre- and post-trade compliance; booking, allocation, settlement, reconciliation, margin monitoring, and broker communication.

01 / EXPERIENCE / CONTINUED**FIS Global (Formerly SunGard Front Arena)**

Jun 2015 - Apr 2018

Trading Application Support Analyst

- Built and customized FIX interfaces, Bloomberg data loaders, FTP/SFTP feeds, and Python/XSL mappings that sustained trade flow across prime brokers, Front Arena, downstream brokers, and fund administrators.
- Protected pricing, P&L, risk, and end-of-day reporting integrity by resolving yield-curve, volatility-surface, Greeks, and structured-product workflow breaks; customized workbooks and automated reporting.
- Strengthened pre- and post-trade controls by configuring compliance rules and risk modules across market, liquidity, counterparty, operational, and regulatory requirements; partnered with core development on reusable functionality.

02 / QUANTCHOAI / APPLIED GOVERNANCE MODEL**ROUTE** Implemented risk-aware agent selection using task value, success probability, cost, uncertainty, and CVaR budgets.**PROVE** Promoted work through shadow, canary, test, and audit gates; updated agent trust from observed outcomes.**AUTHORIZE** Enforced risk-tiered context, tool, and budget access with fail-closed operator release.**WORKING PLATFORM** Python, MongoDB, REST, claim ledgers, Git worktrees, deterministic reduction, rollback, recovery.**03 / GLOBAL OPERATIONS / MEDIA****WORLD STAGE / GLOBAL OPERATIONS, LIVE MEDIA & LANGUAGE****18th World Xiangqi Championship**

2023

Organizing Committee · Venue Technology, Broadcast & International Operations

- Designed, built, and operated the venue technology and Tencent live-stream stack end to end—configuring OBS Studio, establishing broadcast workflows, and coordinating directly with Tencent's technical team through live event delivery.
- Served as the sole overseas MC and Tencent trilingual live-broadcast host/commentator in English, Mandarin, and Cantonese; tournament coverage generated 1M+ cumulative views. Led delegate hospitality and interpreted live for players, referees, consular, elected, and government officials.
- Invited by Xinhua News Agency—China's state news agency—as the only overseas Xiangqi International Master to contribute signed English coverage; authored the opening and closing championship reports.

XINHUA BYLINES [Opening report](#) · [Closing report](#)**DISTINCTION** International Master of Xiangqi (IM 0150) · Represented the United States; placed 14th at the 2019 World Tournament.**COMMUNITY LEADERSHIP** Xiangqi Instructor & Community Mentor, San Francisco Public Library - teach strategy and mentor public-program participants across ages and skill levels.**04 / ADDITIONAL OPERATIONS****Keroro Travel**

Jul 2024 - Present

General Manager, Travel Technology & Operations

- Designed the operating and systems architecture for a travel advisory business, connecting Expedia TAAP, Fora, supplier platforms, and internal workflows for itinerary design, client data, quoting, commissions, and service delivery.
- Developed a network of tour operators and destination suppliers to source premium inventory; personally evaluated luxury travel products and converted firsthand findings into curated itineraries and client recommendations.
