

Stephen Cho

AI Systems Architect · Product, Platform & Governance

San Francisco, CA / (415) 699-4064 / stephenchung29@gmail.com / [linkedin.com/in/stephen-cho-50226699](https://www.linkedin.com/in/stephen-cho-50226699)

Designed QuantChoAI, a two-layer agentic operating system that pairs client-facing workflows with a governance control plane for routing, permissions, evidence, staged promotion, recovery, and human approval.

10+ YEARS · AGENTIC SYSTEMS · PLATFORM OPERATIONS · TRILINGUAL GLOBAL DELIVERY

O1 / EXPERIENCE

SIGNATURE SYSTEM — TWO-LAYER FINANCIAL AI OPERATING SYSTEM · FAIL-CLOSED

QuantChoAI LLC

Apr 2025 - Present

AI Systems Architect & Product Lead

I. CLIENT EXPERIENCE OS Dashboards · Positions · Risk · Subledger - client-facing state, decisions, provenance, and audit context.

SCHEMA-DEFINED TICKETS + BOUNDED AUTHORITY

II. AGENT GOVERNANCE OS Route · Authorize · Test · Promote / Recycle · Recover - the control plane for bounded agentic execution.

- Implemented quantitative agent selection using task value, success probability, cost, uncertainty, and tail-risk constraints; updated agent trust from observed outcomes.
- Promoted work through shadow, canary, test, and audit gates; enforced risk-tiered context, tool, and budget access with fail-closed operator release.
- Built MongoDB ticket/claim ledgers, isolated Git worktrees, deterministic reduction, append-only telemetry, dashboards, rollback, and recovery.

WORLD STAGE / GLOBAL OPERATIONS, LIVE MEDIA & LANGUAGE

18th World Xiangqi Championship

2023

Organizing Committee · Technical Operations, Trilingual Broadcast & International Delegations

- Designed, built, and operated the venue technology and Tencent live-stream stack end to end - configuring OBS Studio, establishing broadcast workflows, and coordinating directly with Tencent's technical team through live delivery.
- Served as the sole overseas MC and Tencent trilingual live-broadcast host/commentator in English, Mandarin, and Cantonese; tournament coverage generated 1M+ cumulative views. Led delegate hospitality and interpreted live for players, referees, consular, elected, and government officials.
- Invited by Xinhua News Agency (China's state news agency) as the only overseas Xiangqi International Master to contribute signed English coverage; authored the opening and closing championship reports.

XINHUA BYLINES [Opening report](#) · [Closing report](#)

DISTINCTION International Master of Xiangqi (IM 0150) · Represented the United States; placed 14th at the 2019 World Tournament.

COMMUNITY LEADERSHIP Xiangqi Instructor & Community Mentor, San Francisco Public Library - teach strategy and mentor public-program participants across ages and skill levels.

01 / EXPERIENCE / CONTINUED**Keroro Travel**

Jul 2024 - Present

General Manager | Travel Technology & Systems Architecture

- Designed the operating and integration architecture connecting Expedia TAAP, Fora, supplier platforms, itinerary design, client data, quoting, commissions, and service-delivery workflows.
- Built tour-operator and destination-supplier relationships; evaluated luxury travel products firsthand and converted findings into curated itineraries, service standards, and client recommendations.

02 / CAPITAL MARKETS SYSTEMS / RISK FOUNDATION**Calypso Technology**

Jan 2020 - Jan 2021

QA Engineer - XVA / ERS

- Protected monthly XVA/ERS release quality through manual regression and client-scenario tests, production-defect investigation in JIRA, service monitoring, and formal release reporting.
- Diagnosed pricing, risk-valuation, and P&L breaks across yield-curve, underlying-price, and FX shocks; supported implementations for HKEX, EUREX, MUFG, RBC, HSBC, AIB, Gazprom Bank, and Emirates NBD.

Open Door Capital Advisors, LLC

May 2018 - Jan 2020

Investment Risk and Performance Specialist / Investment Control Specialist

- Produced VaR, stress, liquidity, concentration, attribution, contribution-to-return, and monthly investor reporting for an approximately \$500M Greater China hedge fund.
- Evaluated vendor risk models and built custom risk and performance-attribution workflows for Greater China and emerging-market exposures using Bloomberg, FactSet, and R.

FIS Global (Formerly SunGard Front Arena)

Jun 2015 - Apr 2018

Trading Application Support Analyst

- Built and customized FIX interfaces, Bloomberg loaders, FTP/SFTP feeds, and Python/XSL mappings that sustained trade flow across prime brokers, Front Arena, downstream brokers, and fund administrators.
- Protected pricing, P&L, end-of-day reporting, and pre-/post-trade controls by resolving yield-curve, volatility-surface, Greeks, structured-product, compliance, and risk-module issues.

03 / SYSTEMS & DELIVERY

AGENTIC PLATFORM Python; MongoDB; REST/JSON; schema-defined tickets; claim ledgers; Git worktrees; deterministic reduction; telemetry; rollback.

ENTERPRISE DELIVERY Workflow mapping; integrations; release coordination; defect and incident triage; technical communication; cross-functional stakeholder alignment.

DOMAIN SYSTEMS Front Arena; Calypso XVA/ERS; Bloomberg; FactSet; FIX; SQL; XML/XSL; scenario and risk workflows.

04 / EDUCATION / CREDENTIALS**University of California, Los Angeles (UCLA)**

Class of 2014

Bachelor's degree, Mathematics/Economics · Minor in Statistics

CERTIFICATIONS FIS/SunGard Front Arena AEF Base Certified Developer; CFA Claritas Investment Certificate
